Welcome to Rancho Santa Margarita

Rancho Santa Margarita is a master planned community, and is one of the youngest cities in Orange County. Rancho Santa Margarita is a small city with the soul of a village. The City is instilled with traditions that honor the heritage of our land. A mix of land uses and a balance of jobs and housing provide a planned community oasis in which people live, work, shop, and play. Community events and public gathering places promote a family-oriented community and encourage community spirit and participation. The City maintains a safe environment through a variety of community programs, law enforcement, and fire protection services.

Quality educational programs and facilities are promoted through cooperation between the City and the school districts.

As the community looks toward the future, Rancho Santa Margarita will strive to ensure its small town village character is protected and enhanced by well-designed and well-maintained neighborhoods that complement the natural environment. The quality of environmental, open space, scenic resources and our watershed shall be preserved to enhance the community's distinct setting and natural beauty. Other amenities such as Lake Santa Margarita, parks, pools, community centers, and pedestrian/bicycle trails will also be protected and well-maintained to meet the needs of the community.
