

PAPAGO GATEWAY CENTER

LEED Certified Gold

High Volume Interiors

Life Science Capable

North Tempe, Arizona

Placed into service in 2008 and anchored by First Solar, Papago Gateway Center has become an icon in the North Tempe Class "A" marketplace. Efficient and adaptable by design, Papago is a LEED Gold certified building, featuring the largest second-skin shade structure in the Western US.

The contemporary design of the building celebrates the relationship between sustainable commercial development and the beauty of the Sonoran desert. The Property's orientation maximizes the picturesque views of Camelback Mountain, Papago Buttes, and Tempe Town Lake while reducing solar exposure and operating costs. The most prominent, southern facing façade is clad with operable aluminum louvers that form the striking appearance for which the Property is famously known.
